

BAIC

**UNLEASH ADVENTURE**  
**WITH HYBRID POWER**

**BJ30**

FUTURE MOTORS

## Polygonal Headlights

Integrated with the narrow-stripe front grille, and are covered with transparent light housings to enhance the vehicle's fashion sense.

## D-shape vertical LED tailgights

Quite similar to that of the BJ40. It is also paired with a new bright black + silver decorative rear surround, which echoes well with the front bumper.

## Side Body Design

The L-shaped floating roof combined with the hardtop design further accentuates the hard-core style. When the vehicle is stationary, the fender lights illuminate with a breathing effect. The anti-scratch design effectively prevents paint scratches and scuffs during daily door opening or recreational activities.

Wheel fender lights

# Dimensions

**Height**

1790 mm

**Wheelbase**

2820 mm

**Length**

**Width**

1910 mm

# Powertrain

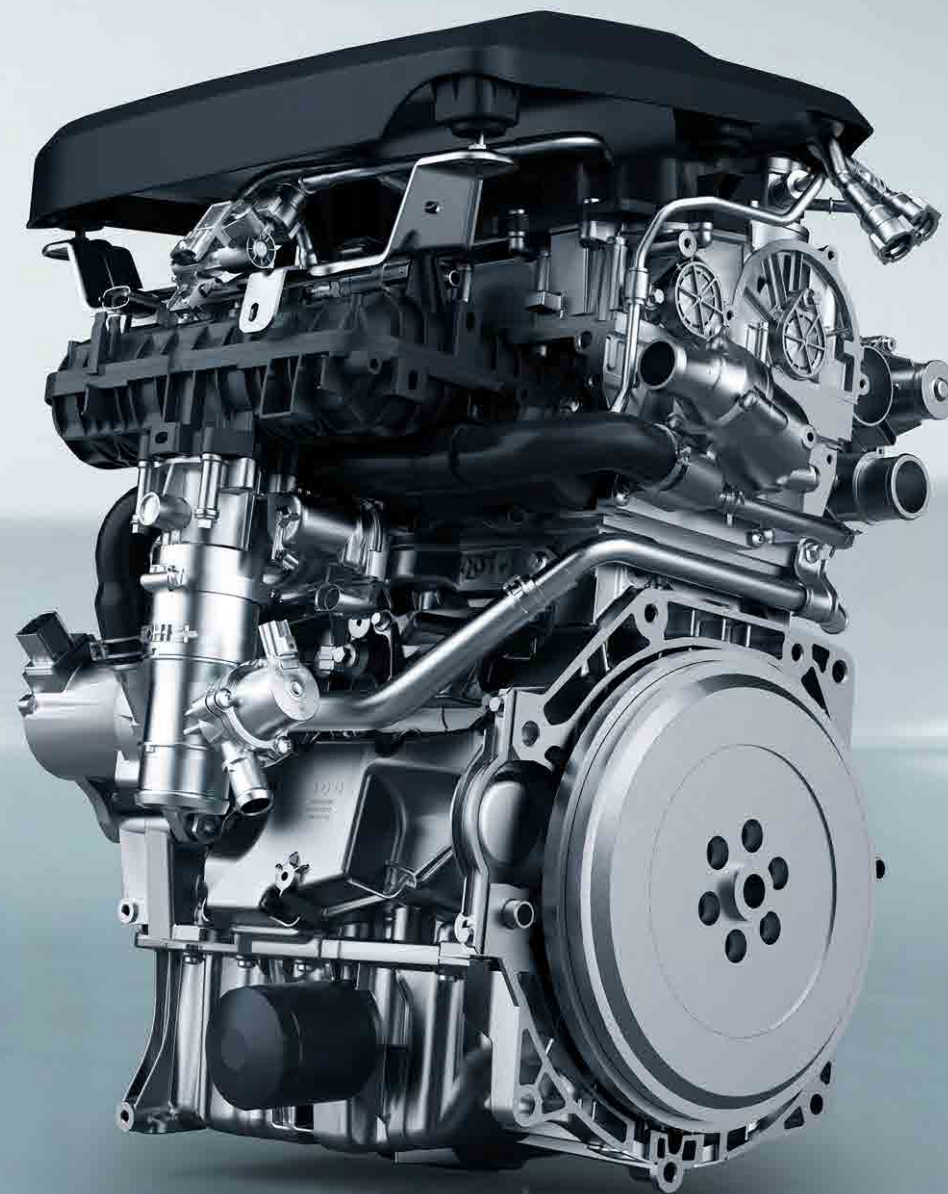

BAIC and Germany Meta developed

VGT Turbocharger

Advanced Emission Technology

Fast Warming Up Technology

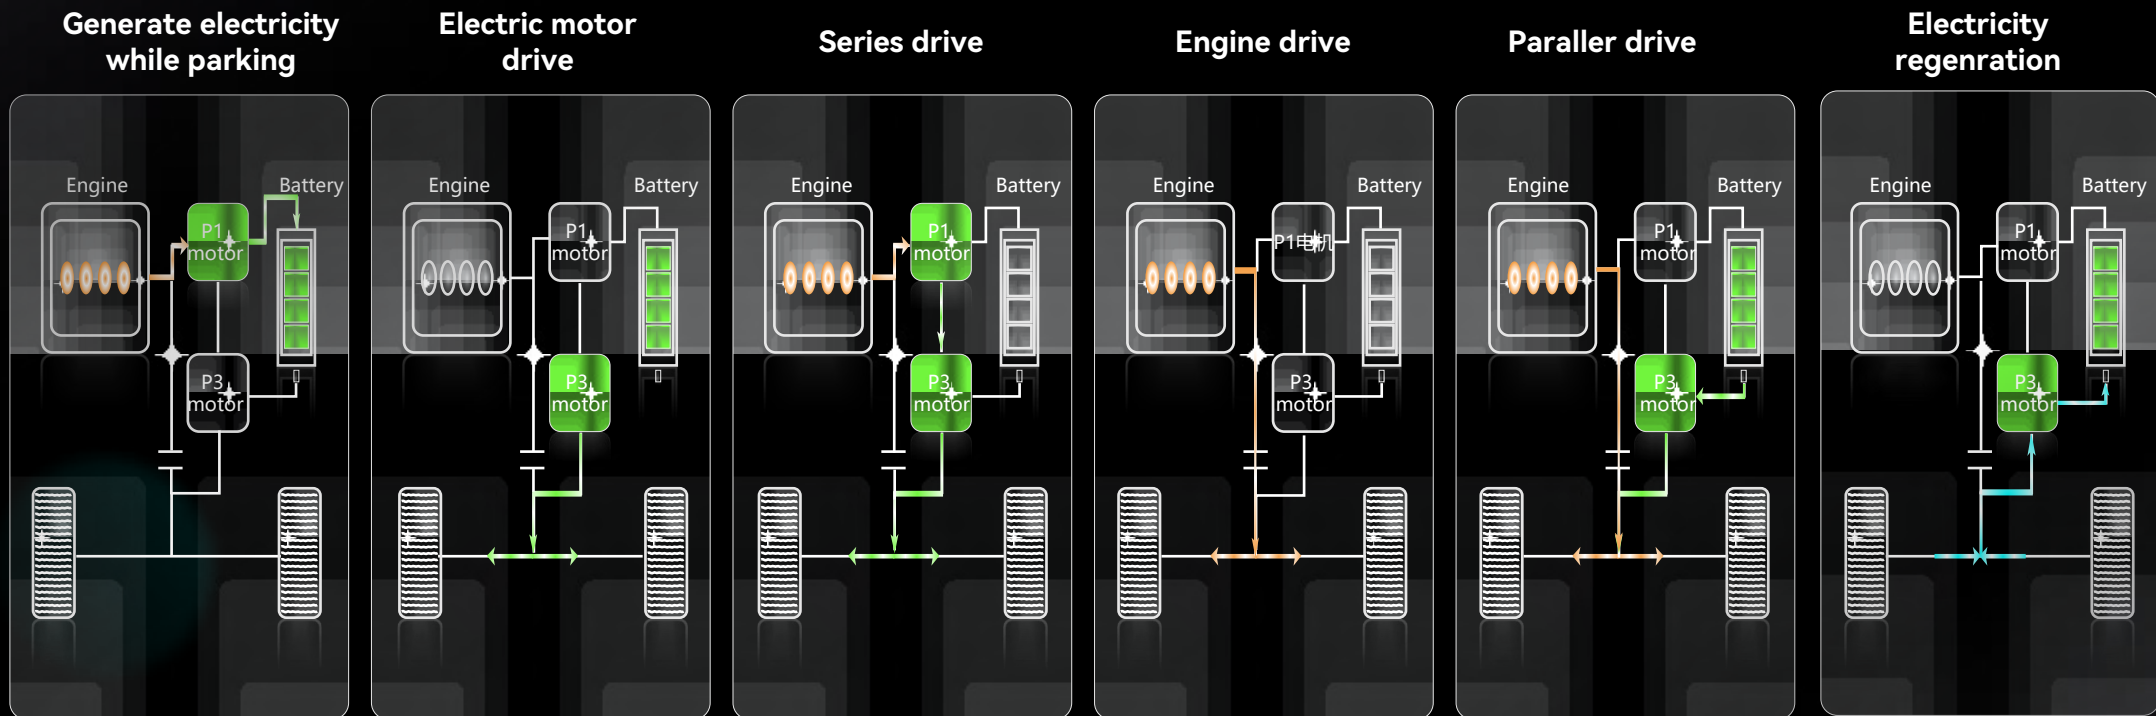

21 Noise Reduction Black Technology

Awarded Top 10 Chinese engine

# Hybrid Operation Mode

6 modes of energy management, covering the full speed range of vehicle conditions, taking into account the power acceleration response, fuel economy and NVH

\*The above conditions will automatically adjust with the vehicle battery power, road slope, driving mode, etc., to ensure that the vehicle is driving in its best state.

## Stylish Interior

10.25-inch LCD instrument panel is easy to read. 14.6-inch suspended infotainment screen has good UI design with simple operation. The large-area soft material of the instrument panel is matched with a contrasting color, and the handle design in front of the sub-instrument panel is hardcore and fashionable.

## Ergonomic Cabin Design

The rear seats of the new BJ30 are designed to be completely flat, which further increases the upper limit of the trunk space providing you ample amount of room for luggage space.

The image shows a close-up of the car's center console. The electronic shift lever is a silver, jet-propeller-shaped knob with a red 'P' indicator. Below it, the letters 'R N D' are illuminated in blue. To the right is a rotary gear selector with a blue, fan-like pattern. The surrounding area is dark and sleek.

## Fighter Style Electronic Shift Lever

The electronic gear shift adopts a fighter jet propeller design which can be shifted with a flick of a finger.

The image shows the interior of the car's trunk. The rear seats are folded down, creating a large, flat space. The trunk is lined with dark material and has several compartments and drawers on the sides. The overall design is modern and functional.

## Large Trunk Space

1496 L of trunk space, can fit ample amount of luggage. Rear seats fold down completely.

**Interior color option: Black with Green**

**Interior color option: Black with White**

**GO CAMPING**

# Roof Capacity

Static max loading capacity

**300 KG**

Dynamic max loading capacity

**80 KG**

## Flexible space

The front and rear can be folded down completely, perfect for a camping scenario.

# Excellent Passing Ability

Minimum ground clearance of 215mm. Approach angle  $25^{\circ}$ , departure angle  $30^{\circ}$ , ramp angle  $21^{\circ}$ , providing good support for off-road driving conditions. 450mm safe wading depth with warning information providing a safer way to navigate through rough conditions.
